While traditional investments such as savings accounts or bonds yield less and less interest in the low interest rate environment, the stock market is still attractive. However, security-oriented investors need to protect themselves against market risk. Investors who expect a stable performance of the Austrian blue chips **Andritz AG**, **Erste Group Bank AG** and **OMV AG** may realize their market expectation with the **Austrian Stocks Bond 3** Guarantee Certificate.

The certificate with full capital protection at the end of the term is suited to security-oriented investors who want to benefit from a sideways moving or slightly rising Austrian market in the medium to long term. Taking the issue surcharge of 3% during the subscription period into account, the maximum return comes up to 3.81% p.a. Further details regarding opportunities and risks are presented on the following page. The certificate's term is eight years.

FUNCTIONALITY

At the initial valuation date, the **starting values of all three underlying shares** (closing price of each share) are determined. During the observation period the **current closing price** of each share is compared to its respective starting value at each annual valuation date. One of the following **two scenarios** will occur:

SCENARIO 1: All three shares quoted AT/ABOVE their respective starting value at the annual valuation date

Provided that the closing prices of Andritz AG, Erste Group Bank AG AND OMV AG are at or above their respective starting value at the current annual valuation date, the investor obtains the interest rate of 4.25% (equals EUR 42.5 per EUR 1,000 nominal value). Investors have the opportunity to obtain the interest rate of 4.25% again in the following years of the term.

SCENARIO 2: ONE share/MULTIPLE shares quote BELOW their respective starting value at the annual valuation date

In case the closing price of one or multiple shares quotes below the respective starting value at the current annual valuation date, the interest payment does not apply for the respective year. However, investors have the opportunity to obtain the future interest rate of 4.25% in each of the following years too. This means investors still have the possibility to profit from positive performances of the shares.

The investment is 100% capital protected. At the end of the term the investors obtain 100% of the nominal value regardless of the market performance.

Please note that past performances do not allow any inferences to be made about future performances.

OPPORTUNITIES

- **Yield opportunity in sideways moving markets:**
Even with sideways moving or slightly increasing prices of the three underlying shares investors can generate a solid yield.
- **100% capital protection at the end of the term:**
The Guarantee Certificate Austrian Stocks Bond 3 is 100% capital protected at the end of the term (January 2025), i.e. the investor obtains at least the nominal value.
- **Secondary market:**
Flexibility through tradability on the secondary market, no management fees

RISKS

- **No yield when shares perform negatively:**
In case the performance of at least one of the three underlying shares is negative at the annual valuation date, the investor obtains no interest rate in the respective year of the term.
- **Price fluctuations during the term:**
During the term the price of the certificate may drop below 100%, the capital protection takes effect exclusively at the end of the term. Loss of value due to inflation is not covered by the capital protection.
- **Issuer risk:**
Redemption is dependent on the solvency of Raiffeisen Centrobank AG (issuer risk). In case of insolvency of the issuer the investor may incur a total loss.
