# SUSTAINABLE INVESTMENT IN MEGATRENDS

## In short:

With the Megatrends Bond 90% II investors obtain a yield of 30% if the underlying iSTOXX® Global Megatrends Select 50 Price EUR index quotes at or above 100% of the starting value at the end of the term. If the index declines up to -10%, redemption is effected at 100% of the nominal value. In case of a negative index performance of more than -10%, the capital protection of 90% applies at the end of the term.

\* Raiffeisen Centrobank AG is a 100% owned subsidiary of Raiffeisen Bank International AG – rating of RBI: [www.rbinternational.com/ir/ratings](http://www.rbinternational.com/ir/ratings)

<sup>1</sup> Early closing or extension of the subscription period is within the sole discretion of Raiffeisen Centrobank AG.

Megatrends are major social, economic, political and technological changes that have the potential to change the world sustainably. They usually lead to fundamental social change and can shape our everyday life permanently. Megatrends are particularly robust and withstand temporary resets without losing their momentum. Many investors are aware of their enormous importance and position themselves accordingly.

In order to enable investors to invest sustainably in megatrends, Raiffeisen Centrobank and the renowned index provider STOXX Ltd. collaborated to establish the ESG-compliant iSTOXX® Global Megatrends Select 50 Price EUR index which comprises businesses along the following nine megatrends: Infrastructure, Sharing Economy, Industry 4.0, Smart Cities, Housing Construction, Next Generation Telecoms, Millennials, Fintech and Silver Economy.

This index serves as underlying for the capital protection certificate **Megatrends Bond 90% II**, which is suitable for investors who expect the companies in the iSTOXX® Global Megatrends Select 50 Price EUR index to achieve an at least moderately positive performance. The certificate offers the opportunity to obtain a yield of 30% (3.8% p.a.) if the index quotes at or above 100% of its starting value at the end of the term. If the underlying quotes lower than 100% but not below 90% of the starting value at the end of the term, the redemption will be at 100% of the nominal value. If the index is below 90% of its starting value after 7 years, the capital protection of 90% will apply at the end of the term. Further details regarding opportunities and risks are listed on the next page.

### SCENARIO 1: Index AT or ABOVE 90% of the starting value

#### A) Index $\geq$ 100% of the starting value → redemption at 130%

If the closing price of the index at the final valuation date is equal to or higher than the starting value, the redemption on the maturity date will be at 130% of the nominal value. This equals the maximum amount of EUR 1,300 per EUR 1,000 nominal value.

#### B) Index $\geq$ 90% and $<$ 100% of the starting value → redemption at 100%

If the closing price of the index at the final valuation date is less than 100% but at least 90% of the starting value, the payout at the maturity date will be 100% of the nominal value. This equals EUR 1,000 per EUR 1,000 nominal amount.

### SCENARIO 2: Index BELOW the starting value

If the closing price of the index at the final valuation date is below 90% of the starting value, the capital protection will apply and the certificate will be repaid on the maturity date at 90% of the nominal value (equivalent to EUR 900 per nominal value).

The **90% capital protection** by Raiffeisen Centrobank only applies at the end of maturity, i.e. during the term the certificate price may drop below 90%, but at the end of the term the investor obtains 90% of the nominal value in the worst case.

### UNDERLYING: iSTOXX® GLOBAL MEGATRENDS SELECT 50 PRICE EUR INDEX

- **Index calculation:** by the independent index provider STOXX Ltd.
- **Index composition:** 50 stocks with low volatility and high dividend yield from specially selected companies that are positioned along the following nine identified megatrends: Infrastructure, Sharing Economy, Industry 4.0, Smart Cities, Housing Construction, Next Generation Telecoms, Millennials, Fintech, Silver Economy
- **Exclusion criteria:** Environmental, social and governance criteria (“ESG”) are also used taken into account in the selection process: companies, which violate UN Global Compact guidelines or in connection with weapons, adult entertainment, gambling, oil & gas, thermal coal, nuclear power or tobacco are excluded.
- **Index weighting:** according to the inverse volatility of the shares, whereby the maximum weighting of an individual share may not exceed 10%

### OPPORTUNITIES

- **Yield opportunity:**  
This Certificate enables investors who do not wish to invest into single shares to obtain yield if the index quotes higher or is unchanged at the end of the term.
- **90% capital protection:**  
The Megatrends Bond 90% II is 90% capital protected at the end of the term, i.e. at maturity the investor obtains at least 90% of the nominal value.
- **Flexibility:**  
Tradability on the secondary market, no management fees

### RISKS

- **No yield if the index performance is negative:**  
If the closing price of the iSTOXX® Global Megatrends Select 50 Price EUR index is below 90% of its starting value at the final valuation date, investor will incur a loss of 10% of the nominal value (based on the issue price of 100%).
- **Capital protection only at the end of the term:**  
During the term the price of the certificate may drop below 90%; the capital protection applies exclusively at the end of the term. Loss of value due to inflation is not covered by the capital protection.
- **Issuer risk / Bail-in:**  
Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

**DISCLAIMER**

In spite of all possible care taken, the data contained in this marketing communication are provided purely as non-binding information. This marketing communication constitutes neither investment advice, an offer or a recommendation nor an invitation to execute a transaction. The information contained in this marketing communication is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this marketing communication substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This marketing communication has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The sole legal basis for all financial instruments described in this marketing communication is the Base Prospectus (including any possible supplements or amendments) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the financial instruments. The approved Base Prospectus (including any possible supplements or amendments) has been deposited at the Oesterreichische Kontrollbank AG. The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. These documents as well as further information are provided on the website of Raiffeisen Centrobank AG at [www.rcb.at/en/securitiesprospectus](http://www.rcb.at/en/securitiesprospectus) or [www.rcb.at](http://www.rcb.at). Additional information on the financial instruments described herein may also be obtained from the respective key information documents that are available for download on the website of Raiffeisen Centrobank AG ([www.rcb.at](http://www.rcb.at)). The price of the Capital Protection Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Certificate during the term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a substantial loss of the invested capital (market risk). The capital protection of 90% applies solely at the end of the term. During the term, the price of the Capital Protection Certificate may drop below the agreed capital protection amount. During the term, the Capital Protection Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a partial loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Capital Protection Certificate and are not paid out.

Issuer Risk/Creditor Participation ("bail-in"): Any payments for structured securities during the term or at the end of the term depend on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. A total loss of the capital invested is possible. More detailed information is available at [www.rcb.at/en/basag](http://www.rcb.at/en/basag). Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.
