* Raiffeisen Centrobank AG is a 100% owned subsidiary of Raiffeisen Bank International AG – rating of RBI: www.rbinternational.com/ir/ratings

¹ Early closing or extension of the subscription period is within the sole discretion of Raiffeisen Centrobank AG.

In recent years, investors have been increasingly focusing on ethical, ecological and social criteria. To meet these requirements Raiffeisen Bank International AG (RBI) and its associated companies have committed themselves to sustainable corporate management and social responsibility. RBI supports the **UN Global Compact Network** in Austria, the world's largest network for corporate social responsibility (CSR) and sustainable development.

To make sustainability a capital-protected investment theme, Raiffeisen Centrobank AG issues the **Sustainability Bond 90% IV** for investors who expect the shares in the STOXX® Global ESG Leaders Select 50 Price EUR index to achieve an at least moderately positive performance. The certificate offers the opportunity to obtain a yield of 32% (4% p.a.) if the index quotes at or above 100% of its starting value at the end of the term. If the underlying quotes lower than 100% but not below 90% of the starting value at the end of the term, the redemption will be at 100% of the nominal value. If the index is below 90% of its starting value after 7 years, the capital protection of 90% will apply at the end of the term. Further details regarding opportunities and risks are listed on the next page.

FUNCTIONALITY

- At the initial valuation date the closing price of the STOXX® Global ESG Leaders Select 50 Price EUR index is determined as **starting value**.
- At the final valuation date the closing price of the index is compared to the starting value and **one of the following scenarios will apply**:

SCENARIO 1: Index AT or ABOVE 90% of the starting value

A) Index \geq 100% of the starting value → redemption at 132%

If the closing price of the index at the final valuation date is equal to or higher than the starting value, the redemption on the maturity date will be at 132% of the nominal value. This equals the maximum amount of EUR 1,320 per nominal value.

B) Index \geq 90% and < 100% of the starting value → redemption at 100%

If the closing price of the index at the final valuation date is less than 100% but at least 90% of the starting value, the payout at the maturity date will be 100% of the nominal value. This equals EUR 1,000 per nominal value.

SCENARIO 2: Index BELOW the starting value

If the closing price of the index at the final valuation date is below 90% of the starting value, the capital protection will apply and the certificate will be repaid at the maturity date at 90% of the nominal value (equivalent to EUR 900 per nominal value).

This marketing communication has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The sole legal basis for all financial instruments described in this marketing communication is the Base Prospectus (including any possible supplements or amendments) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the financial instruments. The approved Base Prospectus (including any possible supplements or amendments) has been deposited at the Oesterreichische Kontrollbank AG. The approval of the Base Prospectus by the FMA should not be understood as an endorsement of the financial instruments described herein by the FMA. These documents as well as further information are provided on the website of Raiffeisen Centrobank AG at www.rcb.at/en/securitiesprospectus or www.rcb.at. Additional information on the financial instruments described herein may also be obtained from the respective key information documents that are available for download on the website of Raiffeisen Centrobank AG (www.rcb.at). The price of the Capital Protection Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Certificate during the term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a substantial loss of the invested capital (market risk). The capital protection of 90% applies solely at the end of the term. During the term, the price of the Capital Protection Certificate may drop below the agreed capital protection amount. During the term, the Capital Protection Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a partial loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Capital Protection Certificate and are not paid out.

Issuer Risk/Creditor Participation ("bail-in"): Any payments for structured securities during the term or at the end of the term depend on the solvency of the issuer (issuer risk). Investors are exposed to the risk that Raiffeisen Centrobank AG as an issuer might be unable to fulfil its obligations in respect of the described financial instruments, such as in the event of insolvency (inability to pay/over-indebtedness) or a legal order to initiate resolution measures. The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. A total loss of the capital invested is possible. More detailed information is available at www.rcb.at/en/basag. Under certain circumstances, the issuer has the right to redeem the certificate prior to the maturity date. A total loss of the capital invested is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.
