UNLIMITED PARTICIPATION IN AN INDEX GROWTH

In short:

With the Hydrogen Bonus&Growth 3 certificate investors participate without any yield limitation at 100% in the positive performance of the underlying Solactive® Hydrogen EUR Index 3.5% AR at the end of the term. Provided the barrier of 50% of the index starting value was never touched or undercut during the observation period, the certificate will be redeemed at the minimum of 112% of the nominal value. In the event of a barrier violation during the term investors are exposed to full market risk; this means a substantial capital loss is possible.

In the future, hydrogen is expected to make a significant contribution in the course of the energy transition. The areas of its application are very diverse: transportation, power generation, manufacturing, heating of buildings and chemistry are just some of the areas in which hydrogenbased technologies could be increasingly used. The ease in regard of its producibility, storage and transportation, as well as the avoidance of carbon emissions, are compelling arguments for an emerging trend spurring hydrogen as an energy source. To enable investors to invest in the future topic of hydrogen, Raiffeisen Centrobank issues the **Hydrogen Bonus&Growth 3** Certificate.

FUNCTIONALITY

At the initial valuation date the **closing price** of the **Solactive® Hydrogen EUR Index 3.5% AR** is fixed as **starting value** and the **barrier** (50% of the starting value) as well as the **bonus level** (112% of the starting value) are determined. At the final valuation date the closing price of the index is compared to the starting value and one of the following scenarios will apply:

SCENARIO 1: index performance ≥ +12%

In addition to the nominal value the positive index performance is paid out at the end of the term. This applies in any case – irrespective, if the barrier was violated during the term or not.

SCENARIO 2: index performance < +12%

If the daily closing price of the Solactive® Hydrogen EUR Index 3.5% AR **always quoted above** the barrier of 50% of the starting value, redemption is effected at 112% of the nominal value (equals EUR 1,120 per nominal value).

Provided, the barrier of 50% of the Solactive® Hydrogen EUR Index 3.5% AR starting value was **touched or undercut** at least one day during the observation period, redemption at the maturity date is effected according to the index performance (percentage change from the starting value to the closing price at the final valuation date).

REDEMPTION PROFILE: Exemplary redemption at the end of the term

INDEX CLOSING PRICE AT FINAL VALUATION DATE*	REDEMPTION** WHEN BARRIER IS	
	UNTOUCHED	VIOLATED
+ 60%	EUR 1,600	EUR 1,600
+ 30%	EUR 1,300	EUR 1,300
+/- 0% = Starting value	EUR 1,120	EUR 1,000
- 25%	EUR 1,120	EUR 750
- 40%	EUR 1,120	EUR 600

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision) – and the key information document as well as „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation.

OPPORTUNITIES

- **Unlimited yield opportunity:** Full participation in the performance of the underlying index without cap
- **Safety buffer:** Partial protection against falling prices down to the barrier of 50% of the starting value
- **Flexibility:** Tradability on the secondary market, no management fees

RISKS

- **Barrier violation:**
If the barrier is violated by the underlying, investors are entirely subject to market risk, without any protective mechanism. Close to the barrier, disproportionate price movements of the certificate can also occur during the term.
- **No yield in case of negative index performance:**
If the index performance at the end of the term is negative and the barrier is breached, investors may suffer a substantial loss of capital.
- **Issuer risk / Bail-in:**
Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG (www.rcb.at) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge of the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.

The financial instrument is not sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index Price at any time or in any other respect. The Index is calculated and published by Solactive AG. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards the Issuer, Solactive AG has no obligation to point out errors in the Index to third parties including but not limited to investors and/or financial intermediaries of the financial instrument. Neither publication of the Index by Solactive AG nor the licensing of the Index or Index trade mark for the purpose of use in connection with the financial instrument constitutes a recommendation by Solactive AG to invest capital in said financial instrument nor does it in any way represent an assurance or opinion of Solactive AG with regard to any investment in this financial instrument.
