- Term of 5 years

EURO STOXX 50® is a registered trademark of STOXX Ltd.

Certificates by

**Raiffeisen
CENTROBANK**

RISING INFLATION RATE BRINGS RISING YIELD

In short:

With the certificate, investors receive an annual interest rate consisting of two components: 1.15% fixed annual interest rate plus the euro area inflation rate. At the end of the term, redemption is effected at 100% provided that the closing price of the EURO STOXX 50® index always quotes above the barrier of 49% of the starting value during the observation period. In the event of a barrier violation by the underlying, investors are exposed one to one to market risk. This means that a substantial loss of capital is possible.

Issuer	Raiffeisen Centrobank AG*
ISIN	AT0000A2YPP2
Issue price	100%
Nominal value	EUR 1,000
Subscr. period¹	July 12 - Aug 8, 2022
Initial valuation date	Aug 9, 2022

FUNCTIONALITY

At the **initial valuation** date, the **initial value** of the underlying is determined and the **barrier** is defined on this basis. The underlying price is compared with the barrier during the observation period. At the final valuation date one of the following **scenarios** will apply:

1) Barrier not touched or undercut

If the underlying price was always above the barrier, 100% of the nominal value is paid out on the maturity date. This amount represents the maximum payout.

2) Barrier touched or undercut at least once

If the price of the underlying was at least once **at** or **below** the barrier, the payout on the maturity date is made in accordance with the performance of the underlying (percentage change from the starting value to the closing price at the final valuation date). The maximum payout amount remains limited to 100 % of the nominal value.

The **interest rate** is composed of a **fixed** and a **variable component** and is paid out regardless of the performance of the underlying. The interest rate for the respective maturity year is determined as follows:

- **INFLATION: Level of euro zone HICP excl. tobacco is higher than in previous year:** The percentage increase in the index is paid in addition to the fixed interest rate.
- **DEFLATION: Level of euro zone HICP excl. tobacco is the same or lower than in the previous year:** The annual fixed interest rate is paid out.

EXAMPLE: In the past 5 years following interest payments would have been effected:

DATE	FIXED INTEREST	+	ADDITIONAL INTEREST*	=	TOTAL INTEREST
2018	1.15%	+	1.77%		2.92%
2019	1.15%	+	1.29%		2.44%
2020	1.15%	+	-0.04%		1.15%
2021	1.15%	+	1.93%		3.08%
2022	1.15%	+	8.20%		9.35%

* Percentage change in the coupon reference price from the coupon reference month of the previous year to the coupon reference month of the following year. Source: Bloomberg (CPTFEMU Index). Please note that past performance is no reliable indicator of performance.

EUROREGION HICP-TOTAL INDEX EXCLUDING TOBACCO

The harmonized consumer price index reflects the change in the general price level of the euro region. The calculation of the HICP provides an overview of the inflation for the euro region as a whole. It thus serves the European Central Bank to monitor price stability in the context of price stability as part of its monetary policy. The ECB defines price stability on the basis of the annual rate of change in the HICP for the currency area. For the certificate, the HICP excluding tobacco is used.

NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at www.rcb.at/en/securitiesprospectus (we recommend reading the prospectus before making an investment decision), in the key information document and among „Customer Information and Regulatory Issues“ at www.rcb.at/en/customerinformation

OPPORTUNITIES

- **Interest rate:** The annual interest rate is paid out regardless of the performance of the underlying
- **Safety buffer:** Partial protection against price losses through the initial safety buffer of 51 % - barrier at 49 % of the starting value
- **Flexibility:** Tradability on the secondary market, no management fees

RISKS

- **Limited yield opportunity:**
The yield is in any case limited to the fixed annual interest payments. Investors do not participate in price increases of the underlyings beyond their starting values.
- **Barrier violation:**
If the respective barrier is violated, investors are entirely subject to market risk, without any protective mechanism. Close to the barrier, disproportionate price movements of the certificate may also occur during the term.
- **Issuer risk / Bail-in:**
Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

DISCLAIMER

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor, an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG (www.rcb.at) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at www.rcb.at/en/basag. A total loss of the invested capital is possible. Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.

The EURO STOXX 50® index, which is used under license, is the intellectual property (including registered trademarks) of STOXX Limited, Zurich, Switzerland ("STOXX").
