

Effective as of 1 December 2022 Raiffeisen Centrobank AG has transferred its certificates business to Raiffeisen Bank International AG including (i) all associated rights and obligations, and (ii) the legal position as issuer of existing securities, i.e. outstanding securities issued by Raiffeisen Centrobank AG. Therefore, as of 1 December 2022, Raiffeisen Bank International AG constitutes the issuer of and the debtor under the securities referred to in the product brochure.

Please be aware that the product brochure reflects the legal situation at the date of its creation and does not contain any updated information about the issuer.

# 4.75% EUROPE/USA BONUS&SAFETY

**INVESTMENT PRODUCT** WITHOUT CAPITAL PROTECTION  
BONUS CERTIFICATE

- Underlyings: EURO STOXX 50® index and S&P 500® index
- 4.75% fixed annual interest rate
- Barrier at 39% of the respective index starting value
- Full market risk if barrier is violated, issuer risk
- Further information on opportunities/risks on the following pages
- Term of 3 years

EURO STOXX 50® is a registered trademark of STOXX Ltd.  
S&P 500® is a registered trademark of S&P Dow Jones Indices LLC.

*Certificates by*

**Raiffeisen  
CENTROBANK**

# INVESTMENT WITH FIXED INTEREST RATE

## In short:

With this certificate investors obtain a fixed interest rate of 4.75% annually. At the end of the term, redemption is effected at 100% provided that the EURO STOXX 50® index and the S&P 500® index always quoted above the barrier of 39% of their respective starting value during the term. In the event of a barrier violation during the term by at least one of the underlyings, investors are exposed to full market risk; this means a substantial capital loss is possible.

## FUNCTIONALITY

At the **initial valuation date** the **starting values** of the underlyings are fixed and from that the **barriers** are determined. During the **observation period** the underlying prices are compared with the according barrier. On the **final valuation date** one of the following **scenarios** will apply:

### 1) Barrier not touched or undercut

If the underlying prices **always** quoted **above** their respective barrier, **100% of the nominal amount** is redeemed on the maturity date. This also represents the maximum redemption.

### 2) Barrier touched or undercut at least once

If **at least one** of the underlyings quoted **at** or **below** its respective barrier, redemption on the maturity date will be affected according to the performance of the underlying with the **worst performance** (percentage performance from the starting value to the final value). The maximum redemption remains capped at 100% of the nominal amount.

The **fixed interest rate** is paid out **in any case**, regardless of the underlying performance.

## REDEMPTION PROFILE: EXEMPLARY PRESENTATION

FINAL VALUE*		REDEMPTION**	IF BARRIER
UNDERLYING 1	UNDERLYING 2	NOT VIOLATED	VIOLATED
+20%	+30%	100%	100%
+15%	+5%	100%	100%
+/-0%	+/-0%	100%	100%
-10%	+25%	100%	90%
+10%	-20%	100%	80%
-20%	-40%	100%	60%

\* in comparison to the starting value; \*\* in % of the nominal value

**NOTE:**  
The redemption is always based on the underlying with the worst performance!

Details on the opportunities and risks are given on the following page.

## NOTE

The referenced opportunities and risks represent a selection of the most important facts regarding the product.

You are about to purchase a product that is not easy and difficult to understand.

For further information see the Base Prospectus (including possible amendments) – approved by the Austrian Financial Market Authority (FMA), deposited at the Oesterreichische Kontrollbank AG and published at [www.rcb.at/en/securitiesprospectus](http://www.rcb.at/en/securitiesprospectus) (we recommend reading the prospectus before making an investment decision) – and the key information document as well as „Customer Information and Regulatory Issues“ at [www.rcb.at/en/customerinformation](http://www.rcb.at/en/customerinformation).

## OPPORTUNITIES

- **Fixed interest rate:** The fixed annual interest rate (4.75% p.a.) is paid out regardless of the underlying performance.
- **Safety buffer:** Partial protection against declining prices due to the initial safety buffer of 61% - barrier at 39% of the starting value
- **Flexibility:** Tradability on the secondary market, no management fees

## RISKS

- **Limited yield opportunity:** The yield is in any case limited to the fixed annual interest payments, investors do not participate in price increases of the underlyings beyond their starting values.
- **Barrier violation:** In case of barrier violation, investors are entirely subject to market risk, without any protective mechanism. Close to the barrier, disproportionate price movements of the certificate can occur.
- **Issuer risk / Bail-in:** Certificates are not covered by the Deposit Protection Scheme. Investors are exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

**DISCLAIMER**

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor, an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Base Prospectus (including any possible supplements) which has been approved by the Austrian Financial Market Authority (FMA) in connection with the corresponding Final Terms of the described financial instruments. The approved Base Prospectus (including any possible supplements) and the respective Final Terms have been deposited at the Oesterreichische Kontrollbank AG as the notification office. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the FMA. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Centrobank AG ([www.rcb.at](http://www.rcb.at)) by entering the International Securities Identification Number (ISIN) of the respective financial instrument. Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein. Raiffeisen Centrobank AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein. Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying. Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Centrobank AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at [www.rcb.at/en/basag](http://www.rcb.at/en/basag). A total loss of the invested capital is possible. Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information. The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital.

Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.
