The financial instrument described herein is based on an MSCI index.

ZERTIFIKATE
AWARD AUSTRIA
Best Issuer
2024

With the certificate investors participate at 200% in the performance of the MSCI® World Top ESG Select 4.5% Decrement Index at the end of the term – up to a maximum of +38% compared to the starting value. In the event of negative index performance, capital protection of 100% is applied at the end of the term.

How the certificate works

At the initial valuation date the starting value of the underlying and at the final valuation date the final value is determined. At the final valuation date the closing price of the final value is compared to the starting value and one of the following scenarios will apply:

1. Final value \geq 119% of the starting value → Redemption at 138%
If the final value is greater or equal to 114% of the starting value, 138% of the nominal value is paid out on the redemption date. This also represents the maximum redemption (maximum amount).
2. Final value \geq 100% and $<$ 119% of the starting value → 200% Participation
If the final value is greater or equal to 100% and less than 119% of the starting value, investors participate with 200% in the positive performance of the underlying index up to the cap. Therefore, the maximum redemption is limited to USD 1,380 at face value. (percentage development from the starting value to the final reference value).
3. Final value $<$ 100% of the starting value → Redemption at 100%
If the final value is less than 100% of the initial value, 100% of the nominal value (capital protection) is paid out on the redemption date.

ISIN / WKN	AT0000A3HFU6
Issuer ¹	Raiffeisen Bank International AG
Issue price	100%
Nominal value	USD 1,000
Subscr. period ²	Jan 6 - Feb 26, 2025
Initial valuation date	Feb 27, 2025

Example payout profile

Final value*	Redemption**
+30%	138% (USD 1.380)
+15%	130% (USD 1.300)
+4%	108% (USD 1.080)
+3%	106% (USD 1.060)
+/-0% (= Starting value)	100% (USD 1.000)
-4%	100% (USD 1.000)
-15%	100% (USD 1.000)
-30%	100% (USD 1.000)

* in comparison to the starting value ** in percent of the nominal value

The payout profile applies at the end of the term

- In any case, 100% of the nominal value will be paid out at the end of the term.
- The maximum redemption is limited by 138% (maximum amount).
- Loss of value due to inflation is not covered by the capital protection.

During the term

- You can buy and sell the certificate during trading hours at the current price.
- The price may drop below the issue price or the level of capital protection. Selling the certificate prior to maturity may result in a partial loss of the invested capital.

Issuer risk / Bail-in: Certificates are not covered by the Deposit Protection Scheme.

Investors are exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency (issuer risk) or an official directive (Bail-in). A total loss of the capital invested is possible.

MSCI® World Top ESG Select 4.5% Decrement Index

The MSCI® World Top ESG Select 4.5 % Decrement Index contains only equities that are included in the parent index MSCI® World (investment universe). The composition of the index is based on a careful selection of around 400 companies from 23 industrialised countries that meet certain criteria.

- **Exclusion criteria:** Exclusion criteria are used to identify sustainable companies. These include, among other things, the production of weapons or energy generation from nuclear power, oil or gas.
- **„Best in Class“ approach:** All remaining companies will be assessed on their environmental, social and responsible corporate governance (ESG) efforts. Only the best 50% of companies in an industry are selected.
- **Decrement:** Paid out net dividends are reinvested in the index; in exchange, 4.5% p.a. are deducted from the index price (daily adjustment).

Legal/Risk Disclaimer

In spite of all possible care taken, the data contained in this advertisement are provided purely as non-binding information. This advertisement constitutes neither investment advice nor an offer nor a recommendation nor an invitation to execute a transaction. The information contained in this advertisement is generic and no consideration is given to the personal circumstances of potential investors. The information contained in this advertisement substitutes neither the necessary individual investment advice for the purchase or sale of investments nor shall any investment decision be taken on the basis of this document. This advertisement has not been prepared in accordance with legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete information for all financial instruments described in this advertisement as well as the sole legal basis for potential transactions in one of the described financial instruments is the Registration Document approved by the Luxembourg Financial Market Authority (CSSF) and the Securities Note approved by the Austrian Financial Market Authority (FMA) - both documents together form the Base Prospectus - together with any supplements and the respective Final Terms of the described financial instrument filed with the FMA. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the competent authorities. Additional information on the financial instruments described herein may also be obtained from the respective key information documents (KIDs) that are available for download free of charge on the website of Raiffeisen Bank International AG (raiffeisenzertifikate.at/en) by entering the International Securities Identification Number (ISIN) of the respective financial instrument.

Unless otherwise explicitly expressed in any of the cited documents above, no measures have been taken in any national legal system which should permit a public offering of the products described therein.

Raiffeisen Bank International AG explicitly excludes any liability in relation to the correctness, appropriateness and completeness of the information presented herein.

Certificates are risky instruments of wealth investment. Should the price of the respective underlying instrument of a certificate develop adversely, an investor may lose part or all of his or her invested capital. Certificates react more strongly or weakly to changes of the price of the underlying instrument depending on a number of factors (e.g. volatility or correlation of the underlying instruments, interest, dividends, remaining term, changes in foreign exchange rates) and do not move simultaneously with the underlying.

Under certain circumstances the issuer is authorized to redeem the certificates prior to the agreed repayment date.

Issuer Risk/Creditor Participation ("bail-in"): Any payments during or at the end of the term of the certificates depend on the solvency of the issuer ("issuer risk"). Investors are therefore exposed to the risk that Raiffeisen Bank International AG might be unable to fulfil its payment obligations in respect of the described financial instrument such as in the event of insolvency ("issuer risk") or an official directive ("bail-in"). The resolution authority may also issue such an order before any insolvency proceedings if the issuer is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). For example, it can reduce the claims of investors in respect of the described financial instruments to zero, terminate the described financial instruments, or convert them into shares of the issuer and suspend investors' rights. More detailed further information is available at raiffeisenzertifikate.at/en/bail-in. A total loss of the invested capital is possible.

Past performance is no reliable indicator of future results. Please refer to the Base Prospectus for additional disclosures on risks as well as further information.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be

subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives, opinions of financial authorities, jurisdiction etc.

The price of the Capital Protection Certificate is dependent on the underlying's price. Adverse performances of the underlying may cause price fluctuations of the Certificate during the term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a substantial loss of the invested capital ("market risk"). The capital protection of 100% of the nominal value applies solely at the end of the term. Loss of value due to inflation is not covered by the capital protection. During the term, the price of the Capital Protection Certificate may drop below the agreed capital protection amount. During the term, the Capital Protection Certificate's price is subject to several influencing factors and needs not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), interest rates, solvency of the issuer or remaining term. If the Capital Protection Certificate is sold prior to the end of the term, there is the risk to incur a partial loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Capital Protection Certificate and are not paid out.
