Investors receive a fixed interest rate of 2.15% semi-annually. At the end of the term, redemption is at 100% provided that all underlyings at the final valuation date quote above the barrier of 60% of their respective starting value. If the barrier is violated, the certificate is redeemed according to the performance of the worse-performing index. In this case, a significant capital loss is possible.

### How the certificate works

At the initial valuation date the starting values of the underlyings are fixed and from that the barriers are determined. The underlying prices are compared with the according barrier on the final valuation date.

The fixed interest rate is paid out in any case, regardless of the underlying performance. The yield is in any case limited to the fixed annual interest payments.

The following options are available at the end of the term:

- Barrier not touched or undercut  
In this case redemption is affected at 100%.
- At least one barrier was touched or undercut at the end of the term:  
In this case redemption will be affected according to the performance of the underlying with the worst performance (final value compared to the starting value). The maximum redemption remains capped at 100% of the nominal value.

### During the term

- You can buy and sell the certificate during trading hours at the current price.
- The price of the certificate is subject to various influencing factors, including the performance of the underlyings, their volatility, correlation and dividend expectations as well as the interest rate level. This price may fall below the issue price and, especially if at least one of the underlyings is close to the barrier, may fluctuate strongly.

#### Note

You are about to purchase a product that is not easy and difficult to understand.

For further information, please refer to the base prospectus (including any supplements) approved by the competent authority - published at [raiffeisencertificates.com/certificatesprospectus](http://raiffeisencertificates.com/certificatesprospectus) (we recommend reading the prospectus before making an investment decision) - and to the base information sheets as well as to "Customer information and regulatory matters" [raiffeisencertificates.com/en/customer-information](http://raiffeisencertificates.com/en/customer-information). The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the competent authority.

#### Legal and Risk Disclaimer for investors

The information provided is for general information purposes only and does not constitute advice, a recommendation or an invitation to enter into a transaction. The information is of a general nature and does not take into account the personal circumstances of potential investors. It is therefore not a substitute for individual investor and investment advice and risk disclosure. The advertisement was not prepared in accordance with the legal requirements designed to promote the independence of investment research and is not subject to the prohibition on trading after the dissemination of investment research.

The complete legal basis for a possible transaction in a financial instrument described here is formed by the registration document approved by the Luxembourg Financial Supervisory Authority (CSSF) and the securities note approved by the Austrian Financial Market Authority (FMA) – both documents together form the base prospectus – along with any supplements and the respective final terms filed with the FMA. The approval of the Base Prospectus should not be construed as an endorsement of the financial instrument described herein by the competent authority. Additional information on the financial instrument is available free of charge in the respective key information documents (KIDs) on the website of Raiffeisen Bank International AG (RBI) after entering the security identification number (ISIN) at [raiffeisencertificates.com](https://raiffeisencertificates.com). Unless explicitly stated in these documents, no measures have been or will be taken in any jurisdiction to allow a public offer of this financial instrument.

Issuer risk/creditor participation ('Bail-in'): All payments during the term or at the end of the term of the certificates are dependent on the solvency of RBI (issuer risk). Investors are exposed to the risk that RBI as the issuer may be unable to fulfil its obligations arising from the financial instruments, e.g. in the event of insolvency (insolvency/over-indebtedness) or an official order for resolution measures by the resolution authorities. Such an order by these authorities may also be issued in advance of insolvency proceedings in the event of a crisis at RBI. In such cases, the resolution authority has extensive powers of intervention, known as 'bail-in instruments'. Among other things, it can reduce investors' claims under the financial instruments described to zero, terminate the financial instruments described or convert them into RBI shares, and suspend investors' rights. Further information is available at [raiffeisenzertifikate.at/en/bail-in](https://raiffeisenzertifikate.at/en/bail-in). A total loss of the capital invested is possible.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is the risk to incur a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.
