This certificate complies with the sustainability standard for Raiffeisen Certificates and takes into account principal adverse impacts on sustainability factors („PAIs").

- **Underlying: MSCI Emerging Markets Top ESG Select 5% Decrement Index**
- **Opportunity for redemption at 140% or higher (100% participation if the index rises by more than +40%)**
- **5 year term**
- **55% barrier, market risk if the barrier is violated and redemption in the form of index certificates**

Please note the issuer risk.
Further information on the investment product and the risks can be found on the following pages.

The financial instrument described herein is based on an MSCI® index.

raiffeisencertificates.com

The certificate will be redeemed in November 2031 at 140% or a higher amount, provided that the MSCI Emerging Markets Top ESG Select 5% Decrement Index remains above the barrier of 55% of its starting value throughout the term. If the barrier is violated, investors will receive index certificates. In this case, a substantial loss of capital is possible.

How the certificate works

At the initial valuation date the starting value of the underlying is fixed and based on this the barrier is determined. During the observation period the underlying price is compared with the barrier

At the final valuation date the following options are available:

1. Barrier has never been touched or undercut.
   - Underlying has increased by more than 40%
     The certificate will be redeemed at more than 140%: investors participate 100% in the index performance with no upper limit.
   - Underlying has increased by 40% or less
     The certificate will be redeemed at 140%.
2. Barrier has been touched or undercut at least once.
   Investors will receive index certificates reflecting the performance of the index (final level compared with the initial level). They may then hold or sell these certificates. Details of the index certificate can be found on the following page.

MSCI Emerging Markets Top ESG Select 5% Decrement Index

The investment universe of the MSCI Emerging Markets Top ESG Select 5% Decrement Index is the overarching MSCI Emerging Markets Index. The index contains around 345 companies from 23 emerging markets, which are selected according to fixed criteria.

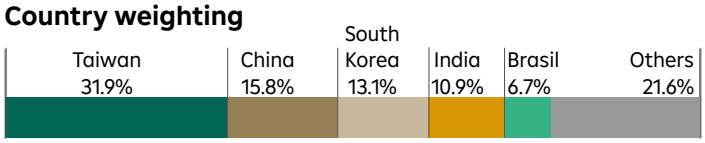

- Exclusion: Certain companies are identified and excluded on the basis of their activities. These include the manufacture of weapons or the production of energy from nuclear power, oil or gas.
- 'Best in class' approach: All remaining companies are assessed in terms of their environmental, social and governance (ESG) efforts. Only the top 50% of companies in a sector are selected.

Decrement Index: Paid out net dividends are included in the calculation of the index. In exchange, 5% p.a. is continuously deducted from the index price (daily adjustment).

Details on the Index Certificate and redemption

Redemption is made in the form of index certificates if the barrier is violated during the term. The value invested in the Index Certificates at the end of the term, as well as the number of units delivered to your securities account, is determined on the final valuation date of the Bonus Certificate.

- Underlying of the Index Certificate is the MSCI Emerging Markets Net Total Return index.
- The number of certificates investors receive depends on the price of the Index Certificate.
- If the calculation does not result in a whole number, the amount is rounded down and the remainder is paid out (cash settlement).

The issuer fee of 0.5% p.a. reduces the price of the Index Certificate (accrued daily).

Legal and Risk Disclaimer for Investors

The information provided is for general information purposes only and does not constitute investment advice, a recommendation or an invitation to execute a transaction. The information is generic and does not take into account the personal circumstances of potential investors. It is therefore not a substitute for individual investor and investment advice and risk disclosure. The advertisement was not prepared in accordance with the legal requirements designed to promote the independence of investment research and is not subject to the prohibition on dealing ahead of the dissemination of investment research.

The complete legal basis for a possible transaction in a financial instrument described here is formed by the registration document approved by the Luxembourg Financial Supervisory Authority (CSSF) and the securities note approved by the Austrian Financial Market Authority (FMA) – both documents together form the base prospectus – along with any supplements and the respective final terms filed with the FMA. The approval of the base prospectus by the competent authority should not be understood as an endorsement of the financial instruments described by this authority. Additional information on the financial instrument is available free of charge in the respective key information documents (KIDs) on the website of Raiffeisen Bank International AG (RBI) after entering the security identification number (ISIN) at raiffeisencertificates.com. Unless explicitly stated in these documents, no measures have been or will be taken in any jurisdiction to allow a public offer of this financial instrument.

Issuer risk/creditor participation ('Bail-in'): All payments during the term or at the end of the term of the certificates are dependent on the solvency of RBI (issuer risk). Investors are exposed to the risk that RBI as the issuer might be unable to fulfil its payment obligations in respect of the financial instruments, e.g. in the event of insolvency (insolvency/over-indebtedness) or an official order for resolution measures by the resolution authority. The resolution authority may also issue such an order before any insolvency proceedings if RBI is judged to be in crisis. Under these circumstances the resolution authority has wide-ranging powers to take action (so-called "bail-in instruments"). Among other things, it can reduce investors' claims under the financial instruments described to zero, terminate the financial instruments described or convert them into RBI shares, and suspend investors' rights. Further detailed information is available at raiffeisenzertifikate.at/en/bail-in. A total loss of the invested capital is possible.

The information presented does not constitute binding tax advice. Tax treatment of investments is dependent on the personal situation of the investor and may be subject to change. As regards tax treatment and impact on the investor's individual tax situation, the investor is advised to consult with a tax advisor. This report is based on the knowledge the persons preparing the document have obtained up to the date of creation. Please note that the legal situation may change due to legislative amendments, tax directives etc.

The Bonus Certificate's price is subject to several influencing factors and need not develop simultaneously to and in accordance with the underlying's performance. Such influencing factors include e.g. intensity of the underlying's price fluctuations (volatility), bond interest rates, solvency of the issuer or remaining term. If the Bonus Certificate is sold prior to the end of the term, there is a risk of incurring a partial or even total loss of the invested capital. Dividends and similar rights associated with the underlying are taken into account when structuring the Bonus Certificate and are not paid out.
