In recent years, investors have been increasingly focusing on ethical, ecological and social criteria. To meet these requirements, Raiffeisen Zentralbank Österreich AG (RZB) and its associated companies have committed themselves to **sustainable corporate management** and social responsibility. Raiffeisen supports the **UN Global Compact Network in Austria**, the world's largest network for corporate social responsibility (CSR) and sustainable development.

To make sustainability an investment opportunity, Raiffeisen Centrobank issues the Sustainability Winner 95%. The certificate enables investors to participate above average in the performance of the **iSTOXX® Global ESG Select 100 Index (EUR)** by giving up part of the capital protection. The index focuses on economical, social and governance criteria of companies and comprises the 100 top stocks of the STOXX® Global ESG Leaders Index, which stand out for **low volatility** and **attractive dividend yields**.

### The index includes inter alia:

Allianz, Novartis, Coca Cola, PepsiCo, Vodafone, Kraft Heinz, Swedbank, Telstra, General Electric, Swisscom, Unilever, Delta Lloyd, MAN, Sanofi, Procter & Gamble

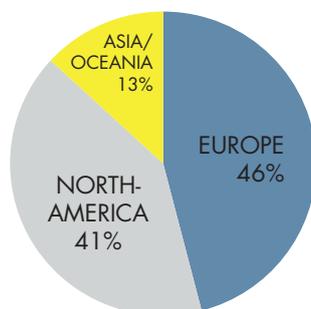

Further to the strict procedure that companies undergo for their admission to the index, which follows the **UN Global Compact Principles**, the STOXX® Global ESG Leaders is a renowned benchmark for sustainable investments. Companies considered non-compliant with the UN Global Compact principles are explicitly excluded from the index. The performance of the iSTOXX® Global ESG Select 100 shows that success and responsibility do not contradict. In the medium-term (five years), the index clearly outperformed well-established indices such as the EURO STOXX 50® or the ATX®.

### FUNCTIONALITY

At the initial valuation date the **starting value** of the iSTOXX® Global ESG Select 100 Index (EUR) is determined (closing price of the index). Once a year, at the respective annual valuation date (2016–2022), the closing price of the index is compared with its starting value and the **performance** is calculated (percentage index performance from the starting value to the closing price at the respective valuation date). At the end of the term the arithmetic average performance of the iSTOXX® Global ESG Select 100 (EUR) of the seven annual valuation dates is determined.

At the maturity date 170% of the **positive average performance** is paid out **in addition to the capital protection of 95%**.

## OPPORTUNITIES

- The capital protection of 95% enables investors to participate at 170% in the performance of an index, which includes the top 100 companies in terms of environmental, social and governance criteria.
- The average price calculation provides for a cushion to set off price slumps by positive performances at other valuation dates.
- The investment product is 95% capital protected at the end of the term, i.e. at the end of the term (October 2022) the investor obtains at least 95% of the nominal value.
- Flexibility through permanent secondary market, no management fees.

## RISKS

- In case the average performance of the iSTOXX® Global ESG Select 100 Index (EUR) is not positive, the investor obtains no yield and is paid out 95% of the nominal value. Thus the investor will incur a loss of 5% of the nominal value as the capital protection comes up to solely 95%.
- The Certificate does not yield ongoing income such as interest rates.
- During the term the price of the certificate may drop below 95%, the capital protection takes effect exclusively at the end of the term.
- Redemption is dependent on the solvency of Raiffeisen Centrobank (issuer risk). In case of insolvency of the issuer the investor may incur a total loss.
