## 1. What is this product?

**Type** This product is issued under Austrian law and entitles the respective holder to receive any amount due from us as the Issuer (bearer form).

**Objectives** The product is designed to provide a return in the form of a cash payment on the **maturity date**. The amount of this payment will depend on the performance of the **underlying**. The product has a fixed term and will terminate on the **maturity date**.

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

On termination of the product on the **maturity date** you will receive:

1. if the **final reference level** is at or above the **initial reference level**, a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference level** divided by (B) the **initial reference level**. However, if this cash payment exceeds USD 1,600, you will only receive USD 1,600 (the maximum payment);
2. if the **final reference level** is above 70.00% of the **initial reference level** and below the **initial reference level**, a cash payment equal to USD 1,000; or
3. if the **final reference level** is at or below 70.00% of the **initial reference level**, a cash payment directly linked to the performance of the **underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference level** divided by (B) the **initial reference level**.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the product issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

## Intended retail client

The product is intended for private clients, professional clients and qualified counterparties who pursue the objective of general asset accumulation/asset optimization and have a maximum of a medium-term investment horizon. This product is for customers with extended knowledge and/or experience with financial products. The investor can bear losses up to the entire amount of the invested capital and is willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

## 2. What are the risks and what could I get in return?

### Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 4 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are unlikely to impact our capacity to pay you.

**Be aware of currency risk.** You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

**Performance scenarios** Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

<i>Investment: USD 10,000</i>				
<i>Scenarios</i>		<i>1 year</i>	<i>2 years</i>	<i>4 years (Recommended holding period)</i>
<b>Stress scenario</b>	<b>What you might get back after costs</b>	USD 5,839.62	USD 6,205.65	USD 4,950.53
	Average return each year	-41.60%	-21.22%	-16.12%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	USD 11,750.53	USD 11,334.43	USD 10,000.00
	Average return each year	17.51%	6.46%	0.00%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	USD 13,253.98	USD 13,677.71	USD 15,019.37
	Average return each year	32.54%	16.95%	10.70%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	USD 14,238.27	USD 14,980.59	USD 16,000.00
	Average return each year	42.38%	22.40%	12.47%

This table shows the money you could get back over the next 4 years under different scenarios, assuming that you invest USD 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. **The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product.** The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. In addition, you should note that the results shown for the intermediate holding periods do not reflect estimates of the product's future value. You should therefore not base your investment decision on the results shown for these interim holding periods.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### 3. What happens if Raiffeisen Centrobank AG is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or in case of certain resolution measures ordered by the respective resolution authority in case of a crisis of the issuer. In that case the resolution authority has a wide-ranging power to take actions, e.g. to reduce the claims of the investors up to zero, to terminate or convert the products into shares of the issuer, to suspend rights of the issuer ("Bail-In"). This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

### 4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest USD 10,000. The figures are estimates and may change in the future.

**Costs over time**

<i>Investment: USD 10,000</i>			
<i>Scenarios</i>	<i>If you cash in after 1 year</i>	<i>If you cash in after 2 years</i>	<i>If you cash in at the end of the recommended holding period</i>
<b>Total costs</b>	USD 649.28	USD 670.04	USD 735.76
<b>Impact on return (RIY) per year</b>	6.49282%	2.83035%	1.33157%

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

**Composition of costs** The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

<b>The table shows the impact on return per year.</b>			
<b>One-off costs</b>	<i>Entry costs</i>	1.33157%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.

## 5. How long should I hold it and can I take money out early?

### Recommended holding period: 4 years

The product aims to provide you with the return described under “1. What is this product?” above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 23 July 2025 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	Not applicable	<b>Price quotation</b>	Percentage
<b>Smallest tradable unit</b>	USD 1,000.00		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

## 6. How can I complain?

Any complaint about the product or the conduct of the Issuer or the person advising on, or selling, the product can be submitted to Raiffeisen Centrobank AG under the following address: Compliance Office, Raiffeisen Centrobank AG, Am Stadtpark 9, 1030 Vienna or using the contact form on [www.rcb.at/beschwerdemanagement](http://www.rcb.at/beschwerdemanagement) or via email to [complaints@rcb.at](mailto:complaints@rcb.at).

## 7. Other relevant information

Any additional documents in relation to the product are published on our website ([www.rcb.at](http://www.rcb.at)), including the final terms and the base prospectus as required by § 10 para. 3 no. 3 first case of the Austrian Kapitalmarktgesetz (Austrian Capital Market Act).
